## PROJECTS

### www.c19raksha.in

#### Project details :

During the covid times, I and my elder cousin brother created a webpage regarding finding out the covid symptoms. We found nearly 86,000+ people enrolled their symptoms through our web link . If they have serious symptoms then will directly report to the nearby hospital.

### Smart door bell using IOT

#### Project details :

Smart doorbell allows home owners to receive alerts when the visitor is at the house.The owners are able to see the face of the person outside the door.If the owner is not inside the house,it sends an email attaching the face of the visitor. We also concentrated on the cost of making it so that it becomes affordable and can be implemented widely throughout the world.

### Travel Destination Selector

#### Project details :

Selecting a destination for the trip is sometimes a very difficult task. So, our app targets on simplifying that task for our users. As a part of this project, we tried to find the kind of places people would be interested in to travel and suggested them the places accordingly.
